Monday 22nd - Tuesday 23rd of May 2023

Floating Wind Days
2023

Dear international guests!

Maximise your Floating Wind Days experience and join us for a valuable 4-day “offshore wind deep dive”

Join us in one of the world’s leading areas in offshore wind for unique knowledge and exclusive network building, socialising, inspiration, and insight at Delegation Days on 22nd-23rd May, before taking part at the International Floating Wind Days event on 24th-25th May!

Join delegations from all over the world on two exclusive tours, visiting leading organisations and tour key assembly sites in offshore wind.

- Monday May 22nd

Viking Experience

Evening programme: Viking experience – at the homeland of the Viking Kings!

On Monday evening, you will be transported back in time via a short boat ride to Avaldsnes and the Homeland of the Viking Kings! For 3000 years, kings and princes ruled at Avaldsnes. They controlled the shipping traffic that was forced through the narrow straight of Karmsundet along Nordvegen which means «the way to the north" which is where the name Norway actually comes from. After a guided tour of the Viking village, you will be served an unforgettable Viking feast in historic surroundings, before being safely returned to the present and your hotel!

Day 2

Tuesday May 23rd

D

• Tuesday May 23rd

Norwegian Fjord Boat trip

On Tuesday morning, you will join the other international delegates as well as Norwegian companies on board a comfortable fast ferryboat.

🚢 This trip will take you through some of Norway's most spectacular nature and Fjord scenery. There will be pitching sessions and B2B meetings on board, as you travel through Norway's amazing natural assets which is what sets Norway firmly on the map for developing floating wind.

🚢 The destination is Europe's largest quarry - Norsk Stein at Jelsa in Suldal - where WindWorks Jelsa will set up one of Europe's largest facilities of production and assembly of floating wind turbines. We will be taken into the quarry by bus and get a presentation of the gigantic plans

🚢 The boat tour will then continue to Tau Autonomy Centre, which offers testing and training facilities for autonomous vehicles covering both aerial and subsea drones.

🚢 Other stops will be made before the boat returns to Haugesund.

- Tuesday May 23rd

Formal reception and festival evening!

Exclusive reception at the townhall

On Tuesday evening, the Mayor of Haugesund, Arne-Christian Mohn, invites you to an exclusive reception at the townhall, together with dignitaries, our main sponsor partners and other VIP figures from the international floating offshore wind industry. Afterwards, there will be further celebrations and surprises as a festival atmosphere takes over the town and we welcome more guests arriving on the eve of Floating Wind Days!

- Delegation days
